

NEWS RELEASE

MET AND SHANDA WIT EXTEND WFGD LICENSE AGREEMENT

Lebanon, Pennsylvania, November 6, 2013 | MET - Marsulex Environmental Technologies Corporation and Shanda Wit Environmental Engineering Co. Ltd proudly announce today that, based on the past 10 years of successful business relations and great APC marketing perspectives in China, the two parties have agreed to extend upon the MET WFGD license. On Oct 17, 2013, Dr. Robert Cardell, President of MET, and Mr. Yang Weiqing, Chairmen of Shanda Wit, signed the WFGD license extension agreement in Jinan, China.

Shandong Shanda Wit Environmental Engineering Co. Ltd., is a subsidiary company of Shandong Shanda Wit Science and Technology Co., Ltd. Shandong Shanda Wit Science and Technology Co., Ltd. is a leading company in bio-medicine manufacturing and environmental business in China. Shanda Wit was one of MET's first WFGD licensees in China. The WFGD license agreement between MET and Shanda Wit was originally signed in 2003, and now, based on the latest extension agreement, will be extended another 5 years.

MET President, Dr. Robert Cardell, stated, "We are proud to be able to continue on with the successful relationship we have with the Shanda Wit organization. The past 10 years have been rewarding and still flourishing, and MET looks forward to extending this prosperous affiliation into the future."

MET is a full service air quality control company providing systems and services including OEM and upgrades to electric utilities, petrochemical and industrial customers. MET solutions include wet, dry and semi-dry FGD systems, Dry sorbent injection for SO₃ control, mercury control, fabric filter and electrostatic precipitator technologies. MET's proprietary AS- FGD is a wet technology that produces high value ammonium sulfate fertilizer by-product. MET's dry CDS-FGD technology offers a highly efficient, multi-pollutant approach to capture SO_x, acid gas and metals. MET's FGD and Particulate technologies combined has been installed on over 189 gigawatts of electric generation in 22 countries across the globe. For further information, visit www.met.net.
